Diane: Also, there is a typo in the next to last sentence of Comment 10 – I think in the cutting and pasting, you left out the end of the sentence.

Diane: Great job incorporating everyone's comments! I had a couple of edits/ thoughts. I also think we should follow up with Sarah on Comment 10, based on her most recent note. I will send a reply to that, and maybe try to follow up with her to better understand her concern.

Please don't send this to Karl yet, until we figure out Sarah's concern. Thanks!!

Here is my take on the CSTAG memo comments, incorporating what I think was significant from ORC and CDM/HDR.
